### InPlay Golf Bristol

InPlay Golf in Bristol continues to go from strength to strength and now uses six of our HD Golf Simulators, two of which are surround systems.

For complete beginners as well as accomplished golfers, InPlay Golf provides a relaxed and informal environment to practice your game or swing a club for the very first time.

Using Sports Coach Simulators (the most accurate indoor detection system available) InPlay is a perfect example of how a successful indoor golf centre should be run.

### Riverside Golf Academy

Riverside Golf Academy have recently added our HD Golf Simulators to the facilities provided at their centre in Indianapolis.

Members and visitors can now play Golf all year round to practice their game on the driving range, focus on chipping and putting or to compete with one and other on any of our many simulated courses from around the world.

PGA Golf professionals are available to provide lessons for anyone from seasoned golfers to absolute beginners if required.

### Ashbury Manor, Devon

Having recently installed one of our HD Golf Simulators at their complex, Ashbury Manor (the largest Golf complex in the UK) are now planning on adding an additional 4 Super Simulators to their facilities.

The HD Super Simulator combines Golf and 14 other sports all on the one system and will open Asbury Manor to a much wider market than just Golfers.

Resulting in extra revenues being generated all year round.

## Golf Retail- The role of the Golf Simulator

Our HD Golf Simulator is a key component in the success of Clubtech Golf Australia in both generating sales of Golf clubs and equipment and as a means of increasing revenue generation by providing lessons through their on-site professionals.

The HD Golf Simulator allows customers to try out new clubs in store before purchase saving time and ensuring that the right clubs are selected.

A unique selling point which puts them out in front of competitors.

## Indoor Golf Twente

Our HD Golf Simulators were considered the best on the market by Indoor Golf Twente and have helped the centre to thrive since its opening.

Lessons are available upon appointment and groups of up to four people are able to compete against each other on one Simulator over a full round of Golf.

The centre is ideal for busy golf lovers as it greatly reduces the time required to play 18 holes and due to the fact that they can play all year round at both day and night.

## Development- GSX Features

The new enhanced graphics engine features:

No loading times between holes, a new physics engine using real- world reference data, the latest in cinematic tree effects, bushes and plants, real- time passing of time, moving volumetric clouds with casting shadows, enhanced terrain lighting and shadow system, sunlit and flowing water, moving and animated objects and animals such as ducks and birds.

As well as this all of the courses are drawn into the distance meaning an increased feeling of being on the actual course itself.
